OPN™ IS NOW RECHARGEABLE!

Oticon Opn miniRITE hearing aids are now available with long-lasting rechargeable batteries. Simply charge overnight and they will last you all day long – even if you use direct streaming. And if you forget to charge, you can use conventional batteries as a backup. So there's no risk of suddenly running out of power. Opn's unique

natural sound experience enables you to hear the sounds and speakers around you, so you can take part in the conversations you like, even in noisy surroundings and by use of less listening effort.

RECHARGEABLE HEARING AIDS

Convenient: no need to change the batteries every few days.

Reliable: when fully charged overnight, it ensures sufficient power throughout the day.

Upgradable: turn your Opn miniRITE into a rechargeable device by exchanging the battery drawer.

CHARGER

Easy to use: simply place the hearing aids in the charger overnight.

RECHARGEABLE BATTERIES

Practical: saves time buying and disposing hundreds of batteries a year.

Maximum flexibility: the rechargeable batteries can be alternated with disposable batteries in case you forget to charge them overnight

Environmentally-friendly: one pair of rechargeable batteries can save around 150-200 disposable batteries a year.

Improving speech understanding in noisy environments from
20% to 75%**

PEOPLE FIRST

Directionality as we know it is now a thing of the past

BrainHearing™ Oticon Opn delivers on what the brain needs

AWARD-WINNING OTICON OPN!

Honoured in two categories:
Tech for a Better World
Wearable Technologies

reddot award 2017
winner

HEARING STARTS WITH THE BRAIN

As an industry pioneer, Oticon has chosen a different path than simply optimizing hearing aids by compensating for damage to the ear. Instead, we have defied convention and acknowledged that the key to better hearing starts with the brain and delivering what it needs to make sense of sound. We call this BrainHearing™. Developed through a profound understanding of how the brain functions in the hearing process, BrainHearing technology in Oticon Opn is able to provide the brain with better conditions to perform. The always-open approach to the listening environment gives the brain access to a balanced soundscape and supports it in the natural way it makes sense of sound, even in difficult listening environments.

96% of Opn users say they hear better with Oticon Opn*

*Beck D.L., Porath M., Consumer Responses to the Oticon Opn hearing Aid, Hearing Review 2017:24(1):26.

BE MORE ATTENTIVE WITH LESS EFFORT

Studies shows Oticon Opn makes listening significantly easier across a wide range of everyday situations, preserving more mental energy throughout the day.

Le Goff and Beck 2017, Oticon whitepaper

DID YOU KNOW?

Research shows that people have different preferences for how much the hearing aid should help in complex situations. Personalization is an integral part of the process. Getting the right fit increases satisfaction, adherence to treatment and the feeling of being in control.

This puzzle is a combination word search and crossword. There are no clues or two-letter words. Just reveal the hidden words by blocking out the incorrect letters. The completed pattern will be symmetrical. Use this fact to help you decide which letters to leave in which ones to leave out.

Pumpkin Coconut Soup

2 cups pumpkin puree
2/3 cups coconut milk
3 cups chicken stock
1 Celery Stalk
1/4 tsp Turmeric powder
Pumpkin seeds for garnish
*Salt and Pepper to taste

1. Heat stock with all ingredients. Bring to a boil, then simmer on low for 30 mins or until celery is cooked thoroughly.
2. Puree the soup in a blender.
3. Garnish with remaining coconut milk and pumpkin seeds

Kick back and cozy up with this simple, 3-step pumpkin coconut soup!
