

# HEAR NOW

SUMMER 2017

When you lose your vision, you lose contact with things.  
When you lose your hearing, you lose contact with people. ~Helen Keller

WILD ROSE AUDIOLOGY  
CLINIC LTD.

Wild Rose Audiology Clinic is an independent, family-owned hearing clinic since 1994.

Our clinic has 6 highly experienced audiologists who are happy to answer any questions about your hearing and appropriate amplification options.

### OUR SERVICES INCLUDE:

- Complete hearing assessments for adults and children
- Hearing aid fittings for all ages
- Fitting custom hearing protection (ear defenders, musician plugs etc.)
- Providing information of funding options for hearing aids and third party applications

## TINNITUS RELIEVING TECHNOLOGY

Oticon Opn™ can play a wide selection of relief sounds that help reduce the impact of tinnitus

Adding background sounds such as white noise or ocean sounds to everyday life can reduce the impact of tinnitus. Oticon Opn's Tinnitus SoundSupport™ technology offers a range of relief sounds that are customized to give the relief you need. Control via the Oticon ON App keeps your tinnitus treatment discreet and handy.

## AWARD-WINNING OTICON OPN!

The world's first Internet-connected hearing aid is sweeping up prizes all over the world, as organizations recognize how it brings a new approach to hearing care.

## OTICON ON

The Oticon ON App enables you to control your hearing aids, choose what you want to hear and adjust the sound.

The App also offers a "find my hearing aid" search feature, counselling advice, links to user instructions and low battery notification.

# OTICON OPN™ FAST ENOUGH TO SUPPORT THE BRAIN

OTICON | Opn

Made possible by unprecedented processing speed.

With 50 times more processing power than the previous generation, Oticon Opn scans your environment more than 100 times per second. It gives you access to 360° of sound. It accurately distinguishes between speech and background noise. It enables you to identify where different sounds are coming from. And it continuously adjusts the relative volume of all sounds around you to maintain a well-balanced and comfortable soundscape. This enables your brain to make sense of sound with less effort. The result more closely mimics natural hearing than any hearing aid we have ever produced.

## OTICON BRAINHEARING™

Oticon Opn uses the latest Oticon BrainHearing technologies to help you:

- Focus on your preferred sounds
- Understand speech with less effort
- Enjoy a fuller and more natural soundscape
- Shift your attention from one sound to another

## HEALTHY RASPBERRY FROZEN YOGURT

Only 3 ingredients needed to create this amazing healthy raspberry frozen yogurt. It's the perfect no-guilt dessert for summer!

### INGREDIENTS

- 300 grams (10.6 ounces) frozen raspberries
- 340 grams (1 1/2 cup) plain Greek yogurt I used 0% fat
- 110 grams (1/3 cup) honey

### DIRECTIONS

Combine all the ingredients in a blender and blend until smooth and creamy. This should take about 4-5 minutes.

At this point the frozen yogurt can be served and will have the texture of soft serve. For a firmer texture, transfer the mixture to a container and freeze for an hour or two before serving, stirring every 20 minutes. Once fully frozen, you may have to let it thaw for few minutes before you can scoop and serve.
